Job vacancy

Job description

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the Eligibility and requirements for an employment permit if you are unsure of your eligibility to apply for this vacancy.

Mechanical Maintenance Technician will perform planned/unplanned maintenance of the customer facilities and installation of equipment. Troubleshoot, repair, or refurbish standard equipment and system components. Carry out on-site metal repair when required. Assemble fabricated in-house parts required for on-site installation. Ensure clear and concise communication with management as to the progress of work allocated while following instructions from site personnel. Follow task briefings and appropriate safe systems of work, and ensure that company policies and procedures are always adhered to. Able to adapt to changing instructions as per task specifications. Ensure that health and safety legislation and company policies are adhered to. Undertake further duties as required by the on-site personnel manager
